Light draught vessels only can be used in the attack, and the Flirt, now repairing to Pensacola, and taking in atores, is to be one of them. She will sail to Yera Gruz on Sunday of Monday next. The writer of the letter from which we obtain this information also states that he heard an officer, who is high in command, predict that the American flag would be floating over the castle of San Juan de Uloa within sixty days. Perhaps preparations will not be completed early enough to reduce the castle within that time, but the expression dropping from an officer, of high rank, removes all doubt of the truth of the report that the attack is contemplated. is contemplated."

The above may be trug—but there must be some terrible hard fighting before the castle is taken—and in our humble opinion it will require a longer time than sixty days to take St Juan de Ullon, with the U.S. naval forces now in the Gull of Mexico, and without bomb ketches.

description of the formmercial:

The instrument is simple in its plan and operation. It is useful on sea or land. One great principle which it cantains is that it entirely overcomes the variation of the Magnetic Needle; whether at the Polesior Equator it tells the Mariner his precise position.

The time of day all any hour, and latitude and longitude can be found in the space fit thirty reconds time whereas by Nautical instruments now in use it requires several observations and frequently hours to acquire the same information and then perhaps incorrect. How many ships have been wrecked, fives lost and properly destroyed owing to the slight variation of the compass; these dangers are obviated by the "Chronopyxis Nautical". From the Newry Examiner, (an Irish paper.) The Three Preachers.

The Three Preachers.

There are three preachers ever preaching,
Each with eloquence and power;
One is old, with locks of white,
Skinny as an anchorite;
And he preaches every hour
With a shrill fanatic vocc,
And a bigot's fiery scon;
"Backward, ye presumptuous nationa:—
Man to musery is born!
Born to drudge; and sweat, and suffer—
Born to labor, and to pray:
Priests and Kings nor God's Vicegerents,

ay: Vicegorente,

Born to labor, and to pray Priests and Kings opo God's Viceger Man must wornin and obey.

Backward, ye presumptuous autions—Back!—be humble, and obey!" The second is a wilder preacher;
Soft he talks as if he sung;
Sleck and slothful is his look,
And his words, as from a book,
I sake glibly from the tongue
With an air of self-content,
I fligh he lifts his fair white hunds:
"Stand ye still, ye restless nations.
And be happy all ye lands!
Earth was made by One Almighty,
And to meddle is to mar;
Change is rush and ever was so;
We are happy as we ore;
Stand ye still, ye restless nations,
And be happy as ye are."

Mightier is the younger preacher;
Genius flashes from his eyes:
And the crowds who hear his voice,
Give him, while their souls rejoice,
Throthing bosoms for replies.
Awed they listen, yet elated;
While his stirring accents fall:
"Forward! ye deluded nations,
Progress is the rule of all;—
Hangwas made for heartful effort;
"Hy ramay has crushed him long."

fyramay has crushed him long, He shall match from good to hetter, Nor be patient under wrong! Forward; ye awakened nations, And do battle with the wrong.

"Standing still is childich folly,
Going hackward is a crima:—
None shall nationally endure
Any ill that he can ource;
Onward! keep the march of time;
Oaward, while a wrong remains
To be conquered by the right;
While Oppression lifts a finner
To diffront us by his might;
While an error clouds the reason;
While a sorrow gaws the heart;
While a slave awaits his freedom,
Action is the wise man's part:— Action is the wise man's part:— Forward! ye awakened nations! Action is the People's part.

Onward! there are ills to conquer,— Ille that on yourselves you've bro There is wisdom to discern. There is temperance to learn. And enfranchisement; for thought. Hopeless Poverty and Toil Hopeless Poverty and Toil
May be conquered, if you try;
Vice and Wretchedness and Famine,
Give Beneficence the lie,
